INFORMATION

1954 marks our twenty-fifth year of supplying seeds and plants. We wish to thank our many friends for their patronage and encouragement throughout these gratifying years.

Our seeds are all personally collected fresh each year. We make an earnest endeavor to send out plants that are healthy and true to name and to use names that are in accord with the International Code of Botanical Nomenclature. Because of conditions beyond our control we cannot guarantee your success in growing either our seeds or plants.

All seeds are 35 cents per packet, postpaid.

Plants, carefully and lightly crated, will be shipped by Express collect, unless otherwise arranged.

Kindly send remittance with your order. Washington residents please add 3% sales tax.

Garden visitors welcome by appointment. Please telephone SUNset 4499.
